## FOREWORD

In 1969, the Statistics Branch released the publication "*A Historical Series of Agricultural Statistics for Alberta*". The purpose of the publication was to bring together under one volume, pieces of statistical information related to agriculture in Alberta. The series ended with the 1966 Census so that final data would not be subject to extensive revisions.

This Supplementary publication was prepared to augment the Historical Series and provides updated statistics from 1961 to 1971. Statistics Canada and Agriculture Canada are acknowledged as the principal sources of the data.

Appreciation is also extended to Mrs. Lucille Serediak and Mr. Peter Kuzyk who assembled and compiled the data as well as others who were involved in making this publication possible.
